PROFESSIONAL SUMMARY

Full Stack Developer with experience in designing, developing, and maintaining scalable full-stack web applications. Hands-on expertise in Production-grade RESTful API design, authentication admin dashboards and scalable frontend architectures. Proven ability to build secure, production-ready systems end-to-end and collaborate effectively with cross-functional teams. Skilled in AI-assisted engineering workflows to accelerate development, debugging, optimization, and delivery.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, Redux, Context API, HTML5, CSS3, Tailwind CSS, Shadcn UI

Backend / APIs: Node.js, Express.js, Adonis.js, RESTful APIs, Authentication (JWT, OAuth), RBAC, ABAC, WebSocket, Event-Driven Architecture

Database: MongoDB, MySQL, Redis, Sequelize, Mongoose

Cloud: Docker, CI/CD Pipelines, Git, GitHub, GitLab

Developer Tools: Git, GitHub, GitLab, Axios

AI Tools: ChatGPT, Cursor, GitHub Copilot, Claude.ai

PROFESSIONAL EXPERIENCE

Rwartz Software [↗](#)

Software Engineer

Aug 2025 - Present

Nashik, Maharashtra

- Built and maintained full-stack web applications using MySQL, Adonis.js, React.js, and Node.js.
- Improved React.js application performance by reducing unnecessary re-renders, implementing lazy loading, and optimizing component rendering for faster page loads.
- Designed robust backend services with RESTful APIs in Adonis.js and integrated them seamlessly with dynamic React.js frontends.
- Adopted AI-assisted development workflows to accelerate prototyping, reducing initial feature development time by roughly 15-20.
- Worked closely with cross-functional teams to gather requirements, plan sprints, and deliver client-tailored solutions.

SINSS Digital [↗](#)

Full Stack Web Developer

Feb 2025 - July 2025

Nashik, Maharashtra

- Collaborated with clients to gather business requirements, translate them into technical solutions, and deliver custom websites from planning through deployment.
- Developed and maintained responsive websites and web applications using React.js, Next.js, Node.js, HTML, CSS, and JavaScript, ensuring cross-browser compatibility and mobile responsiveness.
- Implemented on-page SEO best practices including semantic HTML, structured data (Schema.org), and clean URL structures.

Paarsh Infotech Pvt. Ltd. [↗](#)

MERN Stack Developer

July 2024 - Jan 2025

Nashik, Maharashtra

- Developed a full-stack eLearning platform using React.js, Node.js, Express.js, and MongoDB, implementing end-to-end application functionality.
- Built and integrated RESTful APIs, user authentication, and CRUD operations for seamless frontend-backend communication.
- Developed reusable React.js components, managed application state with Redux, and implemented data validation using Zod.

KEY PROJECTS

EDMS | React.js, Adonis.js, PostgreSQL, Redis

- Designing a multi-layered document security system combining RBAC, ABAC, and ACL to control access by role, department, classification, and time-bound sharing — translating complex permission logic into a usable admin interface.
- Implementing guest access via OTP-verified secure links, watermarked document previews, and audit-logged access decisions for full traceability.

PetExpress | React.js, Adonis.js, MySQL, Typescript

- Developed a scalable multi-portal pet-care SaaS platform featuring secure AdonisJS APIs, a loyalty and rewards engine, partner management, and role-based authentication.
- Implemented real-time server-to-client communication using AdonisJS Transmit to power live notifications for loyalty point updates, bookings, and partner activities.
- Built business logic for rewards, loyalty points, partner management, and visit tracking; implemented role based authentication for Admin, Partner, and Pet Parent portals.

Rwaltz Web Platform | React.js, Adonis.js, MySQL, Typescript, Shadcn UI

- Developed a production-ready enterprise platform featuring a secure AdonisJS API, an RBAC-enabled React admin dashboard, and a SEO-optimized corporate website.
- Implemented role-based authentication and fine-grained permission management; built CRUD APIs for projects, blogs, case studies, and enquiries.
- Integrated backend APIs with the React.js admin dashboard and corporate website, ensuring seamless data flow and optimized user experience.

ELearning Platform | React.js, Tanstack Query, JavaScript, Tailwindcss, Appwrite

- Built a production-ready admin dashboard and web app for managing courses, categories, users, instructors, enrollments, and media assets. Developed secure REST APIs, authentication, role-based access, and reusable React components while deploying the platform on a VPS for reliable production hosting.
- Built responsive user interfaces using React and integrated them with backend services. Built reusable components to improve scalability and maintainability.
- Worked on feature development, bug fixes, and performance improvements throughout the project.

EDUCATION

SPPU - Savitribai Phule Pune University

B.E - Electronics and Telecommunication Engineering - CGPA - 7.66

2021-2024

Nashik, Maharashtra
